

Dennise W.

I am a wife, mother, friend, and cancer survivor! I was diagnosed on October 11, 2011. I will never forget that day, it changed my life. I went through 2 lumpectomies, getting a port, chemotherapy, and radiation. I also had a blood clot, and emergency appendectomy to name a few! I have kept my humor and positive outlook. I have a wonderful family, strong faith, and good support. Through it all I was so blessed to have found the BCCR. The programs and support helped me through a difficult time, and provided a life line that was much needed at times. I have to say my favorite is Brown Bag, it keeps me centered! The BCCR guided me through my journey and still does!
