**RADIATION
ONCOLOGY**
FOR THE TREATMENT OF BREAST CANCER

WEDNESDAY, MAY 23, 2018
7:00 PM

Seminar Location: Breast Cancer Coalition

1048 University Avenue, Rochester, NY • 585-473-8177 • www.bccr.org

Sughosh Dhakal, MD
UR Radiation Oncology
at Unity Hospital

Marilyn Ling, MD
Pluta Cancer Center

Radiation treatment for breast cancer is known to reduce recurrence and increase survival from the disease. But are there risks associated with this form of treatment? What long-term effects may be attributed to radiation therapy? Join us to learn about new radiation oncology techniques that are being used to prevent or minimize risks and long-term effects.
