

UNDERSTANDING YOUR

# PATHOLOGY REPORT

**Dawn Riedy, MD**  
Chief of Pathology  
Rochester Regional Health

WEDNESDAY, JUNE 27, 7:00PM

Breast cancer is not the same for everyone. A “one-size fits all” approach no longer works when diagnosing and treating breast cancer. Come learn about cutting edge technologies such as genomic profiles and molecular targets that have led to new staging guidelines. Join us in exploring the role of the pathologist on the medical team.

*Come with questions
