

Breast Cancer Coalition presents

AN

INTEGRATIVE

APPROACH TO THE TREATMENT OF CANCER

Integrative medicine is a form of healing that considers the *whole person – body, mind, and spirit*. This modality integrates conventional and complementary therapies to promote health, and prevent and treat disease. Integrative medicine can include acupuncture, meditation, massage and more. Please join us as we welcome Dr. Polashenski for an evening exploring integrative medicine modalities to consider in active treatment and for survivorship.
