## Cheryl R.

**D**IAGNOSIS: Left Invasive Ductal Carcinoma (ER+ HER 2 NEU+)

AGE AT DIAGNOSIS: 41

Loving wife of Aldwin and a stay-at-home mom of, Christa (13) and Chaz (10)

My sister Suzette died from breast cancer shortly before her 40th birthday, and I have an aunt who has been a survivor for over 30 years. I was a very sickly and weak person. My family always felt that someone had to look out for me and protect me. I believe my faith in God and the courage to fight and not give up has helped me this far, and I know I will see many more years.

*I SHALL NOT DIE, BUT LIVE AND DECLARE  
THE WORKS OF THE LORD.*
