

# PATRICIA CATALDI

## PAST CHAIR

**P**atti is a Registered Dental Hygienist, an elected official, a breast cancer survivor—and so much more. Her involvement with the Breast Cancer Coalition of Rochester began when she attended the ARTrageous Affair after her diagnosis. There, she witnessed survivors who had become strong advocates, not only for themselves but also for others. They inspired her to volunteer to lead the entertainment committee in 2008 and chair the event the following year. And the rest is history. Patti served as chair of this major fundraiser for nine years and, concurrently, chair of the Board of Directors for six. While she recently stepped down from these positions, she did not step away. Currently, she chairs the Advisory Board and serves as past chair of the Board of Directors. A true public servant—motivated not by politics but a desire to be involved in her community—she is also in her third four-year term on the Webster Town Board.
